CRU-DataPort Storage Rack Solutions for Digital Cinema

4U, 8 Bay DX115 DC Storage Rack

2U, 4 Bay DX115 DC Storage Rack

1U, 2 Bay DX115 DC Storage Rack

The CRU-DataPort DataCase DX115 Digital Cinema JBOD racks are proprietary, high quality and very reliable storage solutions. These products were specifically designed for Digital Cinema customers to offer new options for the installation of up to eight (8) - DX115 SAS:SATA Carriers.

- Constructed of high quality, light weight steel/aluminum
- Each rack boasts our new unique "Auto Start" feature allowing the DX115 drive carriers to be automatically powered up seconds after installation without having to push the on/off button on each drive bay. The on/off button may be used to power down the drive for safe removal
- Choice of (single/dual) eSATA Port Multipliers, 8470 Multilane, eSATA Point to Point & USB2.0/FW800 external host connections
- Extremely efficient cooling
- Ultra quiet
